Continuation of Substance of Interview including description of the general nature of what was discussed: After further review it was determined that claims 24 and 25 should be amended to better correspond with the Applicant's disclosure. Examiner then telephoned Mr. Swanson to discuss the suggestions for claims 24 and 25 including altering the MMAD ranges and also inserting the range "about 0.2 to about 0.3 microns" in the specification. Mr. Swanson agreed with the said suggestions for claims 24 and 25 and the specification. Mr. Swanson further indicated that including the term "administering" in claim 13 adds to the clarity of the method step in this claim. The changes are shown in an Examiner's Amendment (attached).
